# Products

*DELTA DOHA – SSV Valves (Doha, Qatar)*

Delta Doha Corporation is a leading Qatar based oilfield engineering equipment design and manufacturing company specialised in the production of wellheads, X-mas trees and other oilfield equipment products. include Surface Safety Valves (SSVs), Ball Valves, and Steel Valves.

*CLOCK SPRING (Houston, Texas, USA)*

Clock Spring is the world's leading manufacturer of permanent and temporary pipeline repair solutions using composites. Clock Spring repairs are fast, economical and easy and, because no cutting or welding is required. This eliminates risks to the environment and there is no costly down time.

- Contour
- Snap Wrap
- Crack Arrestor
- Conformable Array
- Pipe Support
- Casing Spacer

*WT Petrotech USA, Inc. – Production & Control System (Louisiana, USA).*

WTpetrotechUSA, Inc. 30+ years experience in the oilfield industry with the capabilities in designing and manufacturing production/ safety system, general control system and hydraulic power units for both offshore and onshore locations all over the world. our control system meet all the international standards and codes. Specializing in oil and gas production, process , wellhead and safety controls including pneumatic, hydraulic, electro-hydraulic, PLC-based and solar powered systems.

- Multi-Well System.
- Self-Contained Hydraulic Single Wellhead System.
- Conventional Pneumatic Control System.
- Conventional Pneumatic Control System.
- Emergency Shutdown/Fusible Loop System.
- FPSO – Hydraulic Power Units.
- Subsea & HPU Control Systems.
- Electro-Hydraulic High Pressure Wellhead System.
- PLC-Based Wellhead System.
- Solar Powered Modular Wellhead System.
- Solar Powered Air Compressors.
- SCADA Systems.
- Coil Tube Pressure Safety Pilots.
- Testing And Calibration Systems.

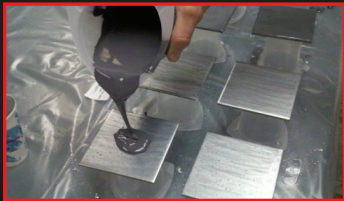

**ROK  
SHIELD**

*ROK Protective Systems,  
LLC (Houston, USA)*

ROK Protective Systems (RPS) provides protective products to pipeline operators, building owners, and all levels of Government agencies within the United States and in many places throughout the world.

ROK products are designed to meet the strictest specifications so you can be confident that your infrastructure is safe.
